

**Breakfast Run to Goolwa Beach –
Don Walker’s Place**
Sunday 31st March 2019

By Steve Spong

For the 5th year running we were invited to Don Walker’s place at Goolwa Beach, a great location and a great opportunity to look at Don’s automotive projects. He has even put on an extension to his, already large, shed since last year. The 2 cars are coming along steadily, and to a high standard.

Firstly, thanks to John Roach who has kindly agreed to assist with these runs this year. John was at the start to sign everybody on, and then to pick up on those who made their own way to Goolwa, which for this run was the majority of people, as only 7 cars were actually at the official start!

Amongst the Veale Garden starts was first timer, Terry Cook, in his early MGB. It was good to welcome Terry on these runs and he even made a name for himself by leading the convoy to Goolwa and navigating to the correct route without a navigator to help him.

Another first timer was Ken Harnett in his lovely early “flat-rad” Morgan.

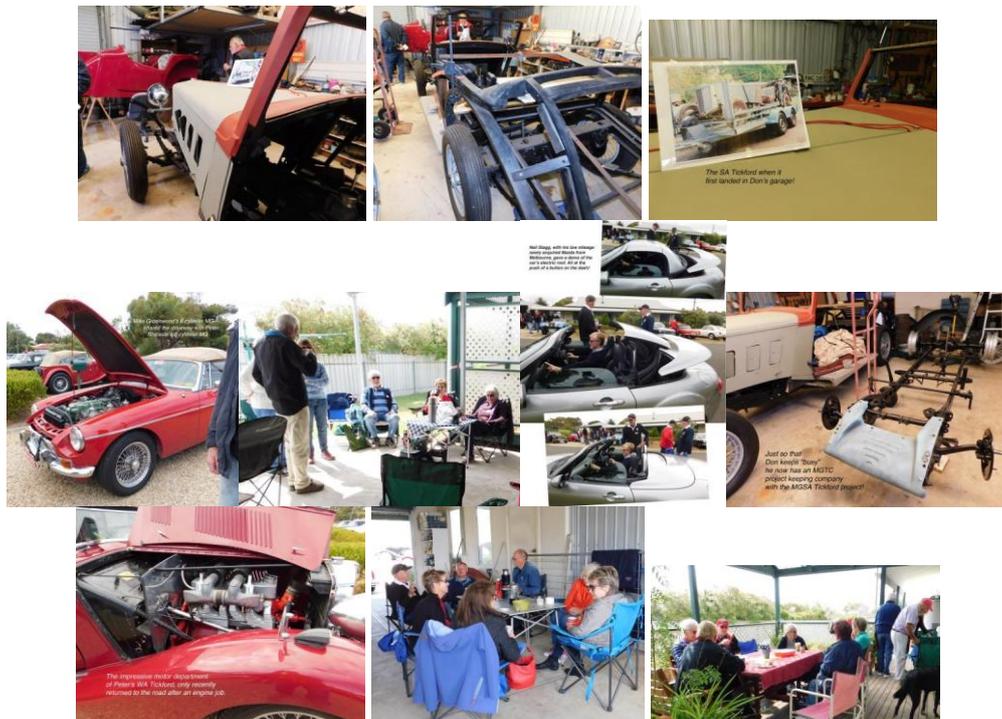

Amongst the guests was Judy Glasson's brother Ron, over from the Blue Mountains.

Peter Shipside brought out his lovely 1940 MGWA once more, this time after a major engine rebuild. For those who do not know, this car has been in Peter's family since new and before Peter was born!

So thanks once more for the invite Don, and for another great day.

Finally, thanks to David McNabb for again taking all the snap shots of the people and cars at Goolwa.

Following the "breakfast" a few of us went to the second and final day of the Mount Alma Hill Climb (The Mt Alma Mile) in the Inman Valley to cheer on John Davies, who did very well. Unfortunately, it was the last year that this event will be held, a great shame as it is a terrific climb and is in a wonderful location.
