As per the new tag-team arrangement; John Roach was the starter for the Veale Gardens crowd of 11 cars, with Barb and I leaving Victor with the Sauers and meeting up with Jeanette at Strath.

Special thanks to Ron Lewis and Julia for attending the start, just a pity that he was not up to the run, but understandable. Take care Ron!

John Roach had the Run sheets at the ready, and here's Bryan Turner signing in...

Despite a cold morning at the start, our MG runners were able to warm up with plenty of hot topics to chat about.

Ron Lewis checking out Graham Loader's "new" Mustang

The Veale Gardens' convoy joined up with a run by the Jag Club at Stirling and so the MGs with the classic Jags, plus 1 Mustang, would have been a great parade through Stirling and Aldgate.

The timing of our two groups turned out to be spot on, with the Veale Gardens convoy and the Victor few all meeting up at Callington and so travelling as one along the Old Princes Highway into Murray Bridge.

Red MGs were the flavour, Ron Lewis's nearest camera, next to Wendy & Bryan Turner's B.

Doggone it, Berry. It's about time we got this show on the road!

Waiting for us at the river foreshore (if you can have such a thing), were locals Brian and Kath Golding. Also making an early appearance at the final venue was other local Ron Jellett in his TC, however Ron went home before we all arrived as it was too cold early on. The day later brightening up and becoming rather warm in the sun.

A lot of horses under the bonnet of Graham Loader's Mustang!

Great to see Jeanette's MGTF along for the run

So, thanks to all who made their way to Murray Bridge and Sturt Reserve, a very well maintained and pleasant spot alongside the river. My only advice would be not to picnic too close to the Bunyip's cave as we unfortunately did, as you are constantly blasted by this mythical creature's cries as the kids fire it up. If you have never been to see the Bunyip, then don't bother.

Great to see Leigh and Kay on the Run

Just a question from left field, "Where were all the MGAs?"
