It was no wonder that we had the Mitcham Reserve all to ourselves for the July Breakfast Run, as it was damn wet and cold. That's two months running now that we have had lousy weather. Here's hoping the August Run to Strathalbyn shows some improvement.

Yet despite the weather we had 13 classic cars turn out, there being a dozen MGs plus a Cooper S. As the attendees list shows however, some of the ladies decided they were better off staying in bed, and for those ladies that did come most wished that they had done the same! As a result, Tony's spare seat was taken up by his very friendly black dog "Betty". We were also paid a surprise visit by Peter & Christine Auld who were out for their morning walk.

Car news is that Paul Grech has recently bought yet another MG, a somewhat rare Midget this time. Carol labels him "hopeless" as he just couldn't pass up on another sports car!
