

Breakfast Run to Kent Reserve

Victor Harbor

30th July 2023

By Steve Spong, John Roach & David McNabb

Well done to the occupants of nearly 30 cars who came on the July Breakfast run to Kent Reserve, Victor Harbor, on what was a pretty average day weather wise. A great turn out, and a chance to shake off the cobwebs from the many cars that had been tucked up for winter.

The start saw 20 cars, 11 of which were red, leaving in fine but chilly weather, many with their tops down. These were joined enroute by 7 more cars, again including several more red ones. This included new comer and first-time breakfast runner David Markwell in his red "B". Amongst all the runners there were 5 "T Types" which always look spectacular, but none had navigators this time! (I wonder why?).

The route of 90km ran along Anzac Highway to Brighton Road, then following the coast south through Lonsdale to Seaford where it joined the Victor Harbor Road. Then it was through Mount Compass where, surprise-surprise, the rain was waiting. Hence on arrival at Victor there was some frantic activity to put the tops up.

The rains did stop however, but not the chill wind, so the idea of a cosy lunch in a Victor pub seemed like a good idea to many.

So please join us for our August run to Kapunda, it's only a little bit further than the run to Victor, but it should be nice to go somewhere where we haven't been for a few years.
