A perfect spring day saw 23 cars attend the Breakfast Run to Willunga, including first timers Richard & Karin Myhill, and one time club member Ian Moulds, each in their red Bs.

The route was through Clarendon and Kangarilla, and for those who took the challenge, the climb up Wickham Hill was worth it for the panoramic view out over the McLaren Vale and along the Coast on the way down. The countryside is currently arguably at its best, with everywhere being in full bloom, with vibrant greens and the deep blue of the sea, given the clear blue skies on the day.

As is often the case, the cars attracted a lot of interest in Willunga, especially given how spectacular and shiny they all looked in the sun. Our breakfast stop was at The Jubilee Rose Garden, after which many of the cars were seen parked up and down the main street as people found a pub for lunch.

If you happen to see people eating cake in the photos it was to celebrate Alan's birthday, and please note that October's run is in fact our annual pilgrimage to the Foweraker's at Younghusband where evidence of the floods is still prevalent.

So, all in all a perfect day for taking the cars on a run and on which to have the tops down.
