

READING AND DOWNLOADING THE CLUB MAGAZINE FROM THE MGCCSA WEBSITE

The website uses a software application (app) called 3D Flip Book which gives the impression of turning the pages of the magazine.

You have the choice of reading the magazine on-line, printing it or downloading it to your computer, iPad or Tablet. If downloaded it will be a PDF file which is a universal format used on both Microsoft Windows and Apple devices.

Finding the Magazine page on the website isn't obvious but if you move your cursor over About Us and select Magazine you'll get there. The link below will take you straight there:

<https://mgccsa.org.au/club-magazine/>

Once you're on the Magazine page, scroll down to the magazine front cover images and click on one to open it. 3D Flip Book takes a few seconds to load, so be patient.

The first page will appear and you can then flip pages and view the magazine in Full Screen mode by using the Tool Bar at the bottom.

The functions are highlighted by colour:

- Red: Zoom In & Zoom Out
- Blue: Next Page & Previous Page
- Orange: Contents – scroll through pages
- Green: Full Screen or Exit Full Screen
- Yellow: Opens the additional options Menu shown below:

Here is where you can select to Print the Magazine or Download it as a PDF file.

Selecting Print gives you the options to print the whole magazine or single pages.
