

LADIES....START YOUR ENGINES

In a bold new initiative, our club is introducing a very special event...just for the ladies.

A proposal was tabled at our last committee meeting to stage a race day event where the ladies get to drive their MG (or partner's MG) at the famous Mallala circuit north of Adelaide. The proposed event was approved by the committee with plans underway as to the format and rules required to ensure that participants can enjoy some laps of the circuit in a controlled and safe environment.

Steve Bowra, the club's MSCA representative discussed our proposal with the MSCA authorities who approved the event to be held in August. We settled on Sunday, August 11th which is the 3rd round of the MSCA Supersprint Series, one of only 2 dates available to us. This event will also give the club an opportunity to showcase our motorsport division to MGCC members who would not normally attend motorsport events.

The basics of the event will be as follows subject to motorsport activities at the circuit on the day.

Only female drivers, being MGCC members or partners of a member can drive in the event. Partners can travel as passengers. A maximum of 5 exhibition laps will be available for our club. All drivers will follow a MSCA pace car which will control the speeds, up to a maximum speed of 80kph on the straight. No safety equipment is required but safety tips will be provided to participants. All MSCA rules and regulations will be adhered to. All MG models can participate.

This event is open to all members. There is no entry fee, and the public is welcome to attend, also at no cost. If the event is well attended, we will consider it for the future and it may develop into one of our club's annual marquee events. Extensive promotion for the Ladies Day will begin soon via our website, magazine and email so please keep an eye out for information upgrades.

We will also request registrations of interest so that we can make preparations for the event.
