

JULY 2024 MG CAR CLUB – MID WEEK LUNCH RUN

Well another very successful mid-week run from Magill to Aldgate has been completed by 29 participants who overcame quite difficult driving conditions. Heavy fog made the drive one for the drivers to have to concentrate on their way up into the hills around Norton Summit and Crafers.

Most of the members who came to the Tower Hotel as the start point to enjoy the coffee and tea made the decision to do the set run up to Norton Summitt (it is always foggy around that part of the hills) then slowly via Tregarthan Road to Greenhill Road; turn right and go along Picadilly Road into Crafers and a bit of a tricky extended section to get over the freeway and into Stirling, from here the fog was negligible so the short run to the Hotel was very easy.

These days there are all sorts of reasons to do part of the run with medical issues being accomplished and then heading up into the hills for the chance to catch up with other members, their wives and or partners look forward to continuing long time friendships because these runs are offered during the day and then an easy run home during daylight hours, I personally am not keen to drive a lot at night during the winter months.

I am happy to report that the number of organisers of these runs have increased with Peter Micklem putting his hand up to help, a special thanks go to Peter and Bronwyn with his existing busy schedule lets hope that the MGB restoration will see them in it on the runs,
